NOTES:

The tables presented in this publication are compiled by Aerospace and Automotive Branch of Industry Canada based on Statistics Canada trade data.

For purposes of this publication Europe includes: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden and the United Kingdom.

All the trade numbers presented are based on the North American Industry Classification System (NAICS), which is a new classification system that is being used by Canada, the U.S., and Mexico. The statistics in the publications previous to "Automotive Trade 2000" were based on Statistics Canada's Harmonized System product codes. Despite efforts to reconcile the differences, discrepancies in some statistics resulted from the change from HS codes to NAICS by Statistics Canada.
